# the beat

## Welcome...

to our Winter 2011 issue of "the beat", Adelaide Cardiology's quarterly publication which provides information about our Practice and cardiology topics of interest.

## Unley Road Clinic

Adelaide Cardiology's Unley Road Clinic has been popular since opening in January this year. Feedback from patients and GPs has been extremely positive with many noting how easy it is to access the location and the onsite car parking – in addition to seeing Adelaide Cardiology's high quality specialists of course!

Doctors John Sangster, Michael Brown, Peter Sage, Karen Teo and Professor Stephen Worthley are practicing from the Unley Road Clinic which offers the following services:

- Consultation
- Echocardiography
- Treadmill Testing
- Electrocardiogram (ECG)
- Holter and Event Monitoring
- Blood Pressure Monitoring

If you would like any further information or would like to arrange a booking, please call us on 8202 6677.

## General Manager

Adelaide Cardiology welcomed new General Manager, Adam Klingberg, in May. Adam has worked in the health industry for the last 15 years, including as General Manager of Heart Care Victoria, General Manager of I-MED SA/NT (including radiology practices Dr Jones & Partners, Perrett Medical Imaging and NT Medical Imaging).

Adam has considerable experience and a strong track record in managing specialist medical practices and also has a foundation in clinical practice as a radiographer which yields valuable insight and understanding of the operations of a medical practice.

St Andrew's Hospital recently announced the development of a Cardiac Centre of Excellence. Director of Cardiology at St Andrew's, Dr Peter Sage discusses this exciting new expansion of cardiac services at the hospital.

**Dr Peter Sage**

For many years, St Andrew's Hospital and Adelaide Cardiology have provided first class cardiac care to South Australians. In 2009, working together, a state of the art Siemens Artis Zee angiography suite was installed in the hospital and became a showpiece for Siemens in the Asia Pacific region.

Now in 2011, St Andrew's Hospital has announced a major expansion of cardiac services with the goal of developing a Cardiac Centre of Excellence and, once again, Adelaide Cardiology is very excited to be integrally involved in its formation.

The major developments already completed include:

- 1) Installation of a second Siemens Artis Zee angiography suite, specifically for provision of cardiac services to complement the existing cardiac and vascular suite.
- 2) Acquisition of the latest intravascular ultrasound and pressure wire technology, to assist interventional cardiologists performing complex high-end percutaneous coronary interventions.
- 3) Installation of a state of the art St Jude EnSite Velocity 3D cardiac mapping system to assist electrophysiologists performing complex EP procedures including AF ablation.
- 4) Development and refurbishment of a dedicated fully monitored 20 bed Cardiac Unit on Ward 3B, comprising predominantly single rooms with ensuites. The Unit is staffed by highly skilled cardiac nurses and of course has the backup of St Andrews' 24 hour resident medical staff.

Moving forward in 2011, there will also be the introduction of Cardiothoracic Surgery with the support of surgeons, anaesthetists and intensivists from the Royal Adelaide Hospital.

Adelaide Cardiology is looking forward to helping develop what we are sure will be a Cardiac Centre where patients receive truly exceptional cardiac care.
